

1/2 PRICE

J-CARDS OR O-CARDS

Get your J-cards or O-cards at half price when National Audio is credited as your cassette manufacturer on the exterior flap panel of any standard-size J-card or on the secondary spine of your O-card.

When requesting a quote, ask for the National Audio credit line file to insert into your design so you can take advantage of this discount pricing. Ask for the format that suits your design application and simply place it into your design file without altering it.

This offer is good for up to 1,000 copies on any regularly priced cassette duplication order.

When ordering the Retro Premium Music Package Specials, you may reduce the cost by 10 cents/cassette. (The RPMPs prices are already reduced.)

This offer CANNOT be used on the Red Hot Deal, Cassingle special offer, U-cards or other specialty inserts, blank tapes or Jcard only orders.

Design rules – Position the National Audio Company credit line file, without scaling it, on the flap or spine of your package design as shown above. It must be visible on the exterior of your cassette package. The PNG and JPEG versions are 600 ppi and made to fit exactly when your design is made at that resolution. You may reverse the type and logo as a whole from any dark colored background. Please do not place on a complex pattern that makes it unreadable. The National Audio design department reserves the right to reject the use of the credit line if these qualifications are not followed.

Our Duplication Guidelines document contains links to all our templates in formats for Photoshop and Illustrator. It also answers most common questions about submitting your artwork. If you have any other questions just call or email.
